About

A passionate and driven 21-year-old Information Technology major specializing in Service Management. With a solid foundation in website design, backend development, advanced system integration, and data security, I bring a hands-on approach to learning and problem-solving. Known for being easygoing, adaptable, and eager to take on new challenges. I thrive in team environments and excel at coordination and communication. Although currently a 4th-year student who paused studies due to personal reasons, I remain committed to continuous growth and skill advancement.
